COMPANY INFORMATION

AIROFLEX EQUIPMENT

www.airflex.com
563-264-8066

AIRPLUS INDUSTRIAL

www.airplusindustrial.ca
1 (866) 291-6855
AIRPLUS Industrial is a leading and integrated provider for industrial clean-air solutions and compressed-air applications in Western Canada. With 30+ years experience in dust, mist and fume collection plus compressed-air applications in industrial sectors, we bring strong relationships with equipment manufacturers and expert service experience to our customers.

ALLIED BLOWER

604-930-7000

AMANDUS KAHL GMBH & CO. KG (SARJ EQUIPMENT, CANADA)

www.akahl.de
905 806 6837
AMANDUS KAHL is one of the leading manufacturers of plants for conditioning feed, food, biomass, wood, straw, waste tyres, sewage sludge, plastics scrap as well as domestic and industrial waste. From the small individual press to industrial pelleting plant: We realise all the desired sizes. Construction of heavy machinery pays off: Our plants are characterised by a high operational safety and availability also for continuous operation. The main machines as pan grinder mills, belt driers, pelleting presses and coolers, are produced in our factory at Reinbek near Hamburg - made in Germany. We also offer consultation and assistance from the start of the project until after-sales service.

BAUM PNEUMATICS INC.

www.baumpneumatics.com
604-945-4507

A proud high pressure supplier to Canada's newest and cleanest dust collection "turnkey" system which consists of containment and a multi-cone dust collection system that does not require the use of large baghouses. We provide, repair, modify, maintain, and monitor services to existing high pressure conveying systems for dust collection equipment.

B.I.D CANADA LTD.

www.bidcanadaltd.com
(506) 328-4381

DelTech has a proven, long-standing reputation for designing and manufacturing continuous/batch kilns, biomass-fuelled energy system technologies, and pellet plant manufacturing. We provide specialized start-to-finish energy solutions for the entire forestry sector.
